

The Pony double ended crochet hooks create stunning, seamless Tunisian Crochet in the round using the two hooks to alternate the two yarns. The hooks are available in sizes 2 - 12 mm and in 30 and 35 cm lengths.

The Pony safety stitch markers are cleverly designed to slip onto your stitches and can be locked, like safety pins, to keep the markers in place.

35 cm

Crochet Hooks Knitting and Sewing Accessories Snaps and Pins

Tunisian Crochet in the round

Materials:

Tension:

12 stitches x 12 rows (forward and return pass are counted as one row) = $10 \times 10 \text{ cm}$ (It is important to check the tension to ensure that you achieve the correct size).

Abbreviations:

ss = slip stitch

FP = forward pass (when you put stitches on the hook)

RP = Return pass (when you work stitches off the hook)

A = colour A

B = colour B

To Make:

TIP: Pony double-ended crochet hooks are used like an Afghan or Tunisian hook. Loops are picked up on the hook in one row (forward pass) and then worked off the hook in the next (return pass). The hat is made in a spiral. Because of this, it is necessary to work 50% of the stitches completely first and then work the remaining 50% of each round.

www.ponyneedles-europe.de

It's as simple as that:

With A, chain 59 (64). Ss to join, taking care not to twist the chains. Check for size. Mark the last stitch with a stitch marker.

Round 1: Start the

forward pass by

inserting the hook

into one loop of the

chain (use the same

part of the chain for

each stitch), yarn

over, draw loop

through, leaving

loop on the hook.

Continue to pick up

loops in this way un-

til you have roughly

50% of the stitches

on the hook, or until

no more can fit.

Turn the work and use the opposite hook. To start the return pass, make a loop with B and pull it through the first loop on hook. (Pulling through one loop is only necessary for the first round).

Work stitch where marker is, move marker to the stitch you just completed (the new end of round stitch).

Yarn over and pull through two loops (one of B and one of A). Continue to yarn over and pull through two loops until just one stitch of the FP and one of the RP remain on the hook.

Turn the work.
Continue the RP
with B – yarn over
and pull through
two loops until just
one loop of FP and
one of RP are on the
hook.

Turn the work.
Continue the FP
with A by picking
up loops until you
reach the marker.

Turn the work. One round complete.

TIP: The FP is always worked in colour A and the RP is always worked using colour B. Each new round will always start with a FP using A.

Round 2 to 16 (22): Repeat Round 1, but this time for the FP insert hook into the vertical bar (in colour A, just below the RP that you just completed), instead of picking up the chain stitch. Continue as before. Round 17 (23):

Decreasing starts.
*Decrease over
every 4th and 5th
stitch in the FP* (by
inserting the hook
through both the
4th and 5th vertical
posts, instead of
just the 4th). Repeat

from * to *, ending with a decrease

stitch, until you have to turn. Complete the RP as normal. Turn. Repeat from * to * again over the FP. Turn. Complete the RP. Turn.

Round 18 (24): Following the style of Round 17 (23), decrease over every 3rd and 4th stitch in the FP. Work the RP as normal.

Round 19 (25): Following the style of Round 17 (23), decrease over every 2nd and 3rd stitch in the FP. Work the RP as normal.

Round 20 (26) onwards: Following the style of Round 17 (23), decrease over every 2 stitches in the FP, working the RP as normal, until there are just 4 stitches left. Work the RP as normal. Yarn over and pull through the last loop on hook.

Pull the working yarn to the inside and sew in ends.
